Welcome to San Diego!

I'm so excited to welcome you to the 38th Annual Healthcare Facilities Symposium & Expo—on behalf of the JD Events team and our amazing Symposium Advisory Board, thank you for being here!

We've got a packed two and a half days ahead, filled with inspiring sessions, innovative exhibits, and plenty of chances to connect. This guide will help you get started, but the mobile app is your best friend for real-time updates and info (check out page 6 for how to download it). And please take a moment to fill out session evaluations in the app—your feedback really helps us shape future events and support our speakers.

In today's ever-changing world, it's more important than ever to come together, share ideas, and learn from each other. Whether you're here for the first time or the 15th, this event is about collaboration—across disciplines, across roles, and across experiences. That's what makes the Symposium so special.

Take time to meet new people and reconnect with old friends. Whether it's between sessions, at a reception, or over coffee, those conversations are where the magic happens. And don't forget to grab a fun ribbon to help break the ice! You'll also see our Emerging Leaders Scholarship recipients around—please say hello and make them feel welcome. They represent the future of our industry.

I also encourage you to step outside your usual lane—attend a session that's a little outside your wheelhouse or visit an exhibitor you've never heard of. You never know what new perspective or idea might spark something big.

Our JD Events team is here to help—look for us in blue polos. We're always happy to answer questions, hear your ideas, or just say hi.

Enjoy your time here in beautiful San Diego, and don't forget to save the date for next year: September 28-30, 2026, in Charlotte, North Carolina!

Warmly,

Jenabeth Ferguson
Vice President, Symposium Director

TAKE PART IN THE SYMPOSIUM PASSPORT PROGRAM... CHANCE TO WIN \$1000

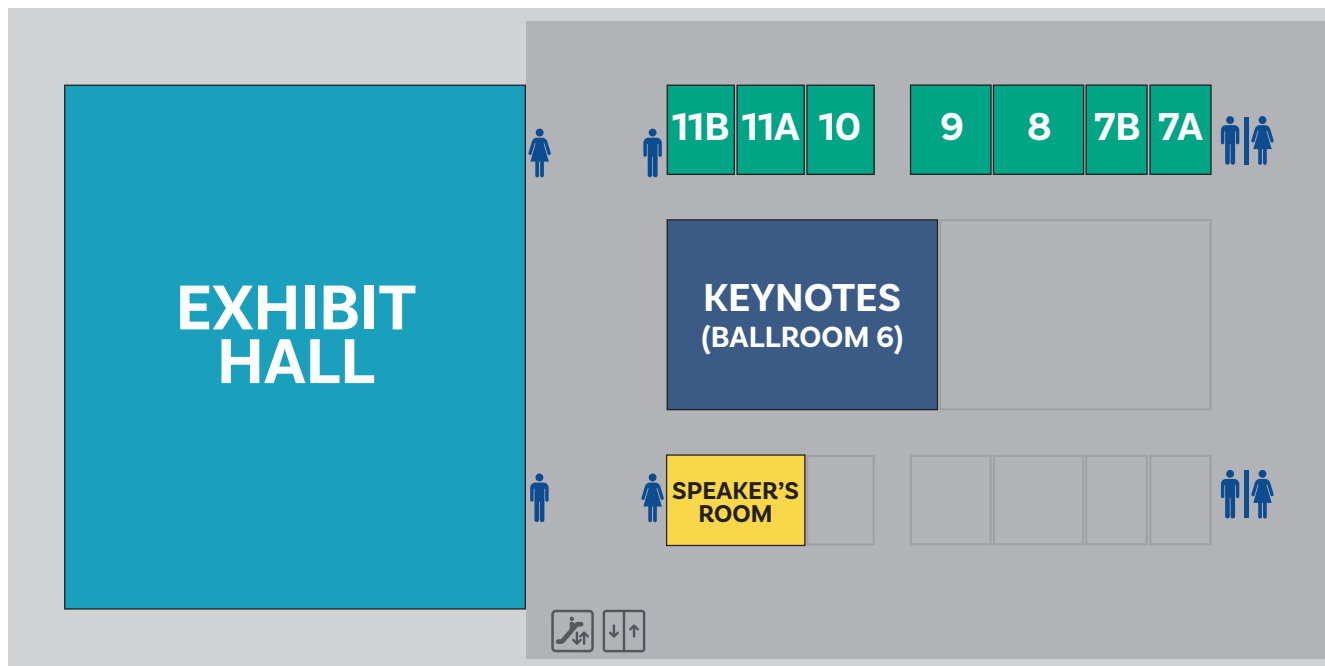

Take part in the fun Passport Program networking game for a chance to win \$1,000! Meet with each participating company at their booth in the exhibit hall, learn about their company and find out their Passport ID Number. Once you've met with all companies participating, you'll be entered in the drawing where one lucky person will win \$1,000!

How to Play: The Passport Program networking game is taking place on-site at HFSE in San Diego in the Exhibit Hall on Wednesday, September 24, 2025 and Thursday, September 25, 2025. To play, attendees launch the Mobile App, then select Passport Program from the navigation menu, to view the list of exhibiting companies participating. Attendees meet with participating companies at their booth to speak with them and find out their unique Passport ID Number needed to complete your entry in the Mobile App. Attendees must visit all companies listed under the Passport Program to be entered in the giveaway, by 2:30 p.m. on Thursday, September 25, 2025. The winner will be announced in the Exhibit Hall in Design Solutions Theater Two at 2:50 p.m. on Thursday, September 25, 2025.

Symposium Map - Upper Level

CEUs:

Earn Continuing Education Units from these HFSE Partners at the 2025 Event.

Interior Designers:

IDCEC recognizes the Healthcare Facilities Symposium & Expo sessions as qualifying for continuing education credits. Each hour of educational content is equal to 0.1 CEU. For credit: obtain the IDCEC form at the Information Desk/Registration. Have your session(s) stamped by a room monitor as you leave each session and mail it to the address specified on the form.

Architects: The Symposium is an AIA Registered Provider. Attendees may earn 1 Learning Unit per educational hour. For credit, obtain a CEU form at the Information

Desk onsite at the event. Keep track of the sessions you attend and turn in your form at the information desk at the end of the show.

EDAC:

EDAC Certified Individuals, obtain a CEU form at the Registration Desk onsite at the event. Keep track of the sessions you attend. You will need to retain the form for your records. You will need it to report courses through Scantron when you are due for renewal.

Many sessions of the 2025 program will qualify for Health, Safety and Welfare (HSW). That means that you can get all 8 of your HSW credits for the year at the Healthcare Facilities Symposium & Expo! Attendees may earn 15.75 continuing education units by attending one conference session in every time bank offered plus a facility tour.

Conference Proceedings:

Copies of presentations may be accessed through the mobile app under each session.

Visit page 6 with info to download. Must be logged in and click on each session to view the presentation.

SCHOLARSHIP PROGRAM

SYMPOSIUM
EMERGING
LEADERS
scholarship

Welcome to the third year of the Symposium Emerging Leaders Scholarship Program! This program recognizes individuals with less than 10 years (nonconsecutive) of experience in healthcare design and construction, including research and education, and offers valuable mentorship opportunities with industry leaders to foster growth and enhance career development.

This year’s recipients have Emerging Leaders ribbons on their badges. Please make them feel welcome and engaged as they are our future leaders. The

Symposium is thrilled to have started this program to encourage the next generation to continue the work of the past 38 years.

For information on the 2026 Symposium Emerging Leaders Scholarship Program please be on the lookout at <https://hcarefacilities.com/elp> starting in March 2026.

DESIGN SOLUTIONS THEATERS

Exhibit Floor

Thursday, September 25, 2025

Open to All Attendees!

Our design team galleries come alive in these sessions where you hear about the projects featured. This year there will be two design solutions theaters so double the chance to hear about the latest projects in this exciting format!

Design Solutions Theater One

10:45 AM - 11:00 AM

Rebuilding the Third Space; Addressing the Social Determinants of Health through the Built Environment

Speaker: Seth Rothman, AIA, LEED AP, Associate Principal, E4H Environments for Health Architecture

11:15 AM - 11:30 AM

Nemours Children's Health, Moseley Institute for Cancer & Blood Disorders

Speaker: Sharon Doyle, Health Principal, HDR

11:45 AM - 12:00 PM

Going Where the Need is Greatest: Designing for the Full Health Continuum

Speaker: Deborah Wingler, Ph.D., MSD-HHE, EDAC, LSSYB, Global Practice Director, Applied Research, HKS

12:30 PM - 12:45 PM

Immersive Mock-Ups: Evolving Physical and Virtual Mock-Ups to Optimize User Engagement

Speakers: Eamonn Meagher, AIA, Senior Associate, PAYETTE; Shreeya Shayka, AIA, Associate, PAYETTE

1:15 PM - 1:30 PM

Still Waters, Living Spaces: A Sculptural Approach to Wellness Campus Planning

Speaker: Joan Albert, Regional Healthcare Director Principal, Page

1:45 PM - 2:00 PM

Navigating the Future: Dynamic Program Projection Modeling

Speaker: Ryan Ramsey, Senior Medical Planner, Associate Principal, Perkins & Will

2:15 PM - 2:30 PM

Enabling Sustainable Remote Healthcare in a Challenging Climate: The Alaska Native Tribal Health Emergency Services Expansion

Speaker: Sharon Schajnoha, Principal, Strategic Director, RWDI Climate & Performance Engineers

Design Solutions Theater Two

11:00 AM - 11:15 AM

Rooted and Responsive: Preserving Identity and Community in a Consolidating Healthcare Landscape

Speaker: Saul Jabbawy, Principal Regional Director of Design, EwingCole

11:30 AM - 11:45 AM

Smart Solutions: Optimizing Design & Planning through Computational Design

Speakers: Danielle Simpson, Architect, OAA, Principal, Practice Group Manager - Healthcare, Arcadis Inc.; Jason King, Principal, Computational Design, Arcadis

12:00 PM - 12:15 PM

It Takes a Village: Bringing the Continuum of Care for Underserved Pediatrics to Los Angeles

Speaker: Hunvey Chen, AIA, LEED AP BD+C, DBIA, Regional Leader of Health Care, HOK

1:00 PM - 1:15 PM

Maintaining Operations Through Construction:

Stanford Health Care Renovation Insights

Speakers: Wenlin Li, AIA, EDAC, LEED AP, Project Manager/Architect, Perkins Eastman; Wenliu Tu, Associate AIA, LEED Green Associate, Architectural Designer, Perkins Eastman; Dzenita Softic, Senior Project Manager, Stanford Health Care

Welcoming Ceremony and Opening Keynote: "Know No Limits"

Open to All Attendees!

BALLROOM 6

SPEAKER:
Oz Sanchez

Join us for the 2025 Welcoming Ceremonies and stay for the Opening Keynote. In a world where limits are often defined by circumstance, Oz Sanchez redefines what's possible. A former U.S.

Marine turned 3-time Paralympic medalist, Oz embodies the spirit of resilience, transformation, and unyielding determination. His journey—from a life-altering injury to becoming a world-class athlete and mentor—serves as a powerful testament to the human capacity for growth through adversity. With a message that resonates across all walks of life, Oz shares how embracing challenges can lead to extraordinary outcomes. His story inspires both the physically challenged and able-bodied alike to push beyond perceived boundaries and pursue greatness. Join us for an unforgettable opening keynote that will challenge your perspective, ignite your passion, and remind you that when you "Know No Limits," anything is possible.

Keynote: You, Multiplied: Compounding Time with AI in Healthcare Facilities

Open to All Attendees!

BALLROOM 6

SPEAKER:

Ron Galloway

What if your team could finally break the limits of the workday? In this talk, Ron Galloway explores how AI and time compounding may quietly transform healthcare facilities management.

Drawing on new research and field-tested case studies, Ron reveals how healthcare facilities leaders can leverage emerging technologies to reclaim time, improve outcomes, and enhance operational excellence. You'll discover: • How shifting your mindset from tasks to workflows unleashes compounding time gains throughout your facility • The new role of AI and automation in anticipating problems, shrinking routine work, and freeing teams to focus on what matters • A glimpse of the near future, where, through ambient tech, facilities may "think ahead" and staff will multiply their effectiveness—not just their effort This session isn't about distant dreams or technology for its own sake. It's about harnessing the real, multiplying power of time in the work you do every day—and getting a clear view of where the AI-driven future is actually heading.

Closing Keynote: Creating Healthcare Facilities that are Loved - 'Of the People, By the People, For the People'

Open to All Attendees!

BALLROOM 6

SPEAKER:

Annette Ridenour, President, Aesthetics Inc.

Healthcare facilities, and their respective organizations, are complex webs of spaces that inform - both - emotional responses and human behavior. Every single one of these spaces provides a opportunity to establish heartfelt and lasting connections, as well as a deep sense of belonging that can transform lives and positively influence the vast spectrum of performance outcome measures - from clinical miracles to organizational excellence - and everything in between. These unique spaces provide a high level of service on behalf of their organization - they are much more than functional elements or aesthetic treatments: they are meaningful, memorable, experiential places that have the potential to inspire awe, lift human hearts, enliven the soul; equally, these spaces offer opportunities for a sense of engagement, whether it be active or passive, and a deep, lasting connection, and personal loyalty to the mission of the organization. Annette Ridenour - artist, designer, entrepreneur, healthcare innovator - will conduct a fast-paced tour, demonstrating the power of place to transcend the ordinary. This Keynote Address will transport you through time, across oceans, within and beyond your body, and will arrive - having never left your seat - considering an approach for the delivery of exceptional healthcare that is authentic, community driven, democratic, collaborative, engaging, sustainable over time, valued by all, meaningful across cultures and communities, relevant, breath-takingly beautiful - and, most importantly - absolutely loved.

Acoustiblok

Booth 407

<https://acoustiblok.com/>

For over 20 years Acoustiblok, a NASA “Spinoff-listed” company, has been a leader in developing/manufacturing products for noise control. The company has received the top award in the British House of Commons for sound abatement and was featured globally on Nat’l Geo TV for its contributions towards reducing noise pollution.

Advanced Wall Solutions

Booth 127

<https://awsbp.com/>

AWS Sempra is a practical, cost-efficient, and comprehensive wall protection solution designed to meet the demands of both high-containment and conventional facilities. Engineered to perform in a wide range of environments, it delivers long-term durability while actively enhancing hygiene. Sempra can be applied as cladding over hardboard, drywall, or CMU—or installed as a complete system. It mounts directly to studs or solid substrates, providing flexibility for both new construction and retrofit projects. Manufactured in the U.S. from 81.25% recycled materials, AWS Sempra is also 100% recyclable after use, supporting sustainable building practices with no harm to the environment. Choose AWS Sempra for advanced protection, environmental responsibility, and peace of mind—all in one solution.

Aesthetics, Inc.

Booth 120

<https://aesthetics.net/>

Aesthetics, Inc. is a nationally recognized, multidisciplinary consulting firm specializing in healthcare and public art. Since 1980, we’ve partnered with 400+ medical facilities across North America, delivering art planning and programs, interior design, and fundraising support to create healing environments that reduce stress and reflect their communities’ values.

AHF Products

Booth 332

<https://www.ahfproducts.com/en-us>

Our trusted brands have adorned American homes for over a century, since the late 1800s. With a legacy spanning more than 150 years, AHF brands epitomize innovation and unparalleled excellence. AHF embraces both the rich heritage of our brands and a nimble, forward-thinking approach to flooring solutions that drives value for our partners.

AJ Manufacturing

Booth 107

<https://www.ajmfg.com/>

AJ Manufacturing designs and builds high-performance modular ceiling, wall, and cleanroom solutions for healthcare and critical environments. Our engineered systems integrate structural support, lighting, and air filtration to improve safety, efficiency, and flexibility. With precision manufacturing in the USA, we deliver quality, speed, and innovation to every project.

AkitaBox

Booth 228

<https://home.akitabox.com/>

AkitaBox delivers an unrivaled data-driven software used to assess, then optimize the operation and condition of facilities, from the boiler room to the boardroom. Our cloud-based software delivers real-time facilities data in a visual and easy-to-use, customizable format, helping teams simplify their operations, reduce risk, and solve even the most complex facility challenges. The AkitaBox Pulse suite of software solutions includes Facility Condition Assessment, Capital Management, Asset Management, Work Order Management, Preventive Maintenance, Occupant Experience, and Inspections.

Alliance Laundry Systems Distribution

Booth 328

<https://distribution.alliancelandry.com/west/>

There’s no match for local service. And when you combine it with the experience of the global leader in laundry equipment, you’ve got an unstoppable team. We’re your full-service partner for commercial laundry equipment. Level up your laundry with our local team behind you—not just selling equipment—but also supporting you with site and contractor selection, equipment installation, genuine parts, warranty support and world-class customer service.”

Altro

Booth 115

<https://www.altro.com/global/>

Altro, a world leading manufacturer of interior surfaces creates products that are durable, easy to clean and enhance the safety of the environments in which they are installed. Our safety floor and hygienic wall products work well individually or together, to provide the highest levels of hygiene and safety in the most demanding environments.

American Academy of Healthcare Interior Designers

Association Partners

<https://aahid.org/>

The American Academy of Healthcare Interior Designers (AAHID) certifies interior designers who specialize in healthcare environments, promoting excellence in the design of spaces that support healing, safety, and well-being.

American College of Healthcare Architects

Association Partners

<https://healtharchitects.org/>

The American College of Healthcare Architects (ACHA) provides board certification for architects specializing in healthcare design, recognizing those with proven expertise in creating environments that enhance patient care and operational efficiency.

Amico Corporation

Booth 319

<https://www.amico.com/>

Amico Corporation designs, manufactures and markets a broad range of products for virtually every department in the health care facility. Our mission is to design and deliver state-of-the-art products that facilitate the caregiver’s role in providing the best outcomes for patients.

Amico Lights

Booth 321

<https://www.amico.com/lights>

Amico Lights is a niche lighting manufacturer focusing solely on the healthcare space. Inspired by user feedback, our products are thoughtfully engineered to provide high-quality lighting solutions that address the common challenges faced in the healthcare environment. Our mission is to deliver lighting solutions that support clinicians with superior lighting performance and functionality while providing patients with visual comfort and personalization to facilitate healing and give them more control over their healthcare experience. By merging lighting performance and design aesthetics, we aim to create products that deliver better clinical outcomes for patients and clinical staff.

Arcadis

DG14

<https://www.arcadis.com/>

"Arcadis is the world's leading company delivering intelligence-driven sustainable design, engineering, and consultancy solutions for natural and built assets. We are more than 36,000 architects, data analysts, designers, engineers, project planners, water management and sustainability experts, all driven by our passion for improving quality of life. We exist to find solutions to today's most pressing challenges, from the impact of climate change to increasing urbanization and digital transformation - all with the ultimate goal of improving quality of life for people around the world. You can see this in the work we do for our clients, the opportunities we create for our people, and in our efforts to enhance the communities in which we live and work. We bring together world-class resources and the latest innovative technologies to help define the cities and experiences of tomorrow. This has been our mission since 1888, when we were founded to transform unusable wetlands in the Netherlands into prosperous land for people to farm. And it continues today."

Armour Roof Co.

Booth 410

<https://www.armourroofco.com/industries-we-serve/hospitals-and-clinics/>

Nationwide roofing services for Hospitals & Clinics. Armour Roof Co. provides roof repair, restoration, replacement, and maintenance with minimal disruption, ensuring safety, compliance, and long-term performance. We specialize in healthcare environments, protecting patients, staff, and equipment while delivering reliable solutions where roof integrity is critical and downtime is never acceptable.

**Association of Medical Facility Professionals
Southern California**

Association Partners

<https://amfp.org/socal>

The Association of Medical Facility Professionals Southern California Chapter connects healthcare built environment professionals through networking, education, and collaboration to advance medical facility planning, design, and operations.

Ballinger

DG12

<https://www.ballinger.com/>

As a team of architects, engineers, planners, and interior designers, we are propelled by a responsibility to design better spaces for healing. We synthesize these disciplines in ways that center human experience and promote wellness for all, giving patients, families, and caregivers a sense of control and comfort. Collaboration drives our design approach, enabling us to understand our clients' mission, goals, and desires. Our commitment to excellence results in award-winning projects that are flexible, cost effective, and environmentally responsible. Through vision and partnership, we design solutions that transcend the functional, forming enduring buildings of purpose and imagination.

Bennu Enterprises, Inc.

Booth 529

<https://www.bennusigns.com/>

Bennu Enterprises, Inc. is a Nashville-based design, planning, and manufacturing firm specializing in healthcare signage. We produce interior and exterior signs in-house, including complete wayfinding systems. Using the latest technology and skilled craftsmen, we deliver high-quality, compliant signage solutions for leading healthcare facilities across the U.S.

Bestbath

Booth 216

<https://bestbath.com/>

Bestbath, a leading American manufacturer of durable, showers and walk-in tubs engineered for healthcare facilities. Our seamless, gelcoat-reinforced designs support infection control protocols by eliminating grout lines and reducing maintenance. Trusted by hospitals and long-term care providers, Bestbath delivers safe, hygienic bathing solutions that promote patient dignity, safety, and compliance.

Bildt

Booth 130

<https://www.bildt.com/>

As a supplier of prefabricated and modular construction products, Bildt helps fill an essential need for clients that value the enhanced speed-to-market and predictability of manufactured construction. Bildt specializes in cutting-edge modular and manufactured products, from wall panels and construction components to fully volumetric permanent modular buildings.

Boldt

Sponsor

<https://www.boldt.com/>

Boldt is a nationally recognized leader in healthcare construction, providing Integrated Lean Project Delivery®, construction management, general contracting, design-build, prefabrication and modular solutions, and real estate development services. When you choose Boldt you can expect an efficient, future-ready facility, built to meet the ever-changing needs of modern healthcare.

CED National Accounts

Booth 110

<https://www.cednationalaccounts.com/>

CED National Accounts is your full line resource for all Lighting and Electrical Switch Gear. We provide design consultation, Inventory management and Project management resources for all your projects. From the simplest design and lay out to the most complex - we are prepared to support your needs.

Champion Manufacturing

Booth 308

<https://championchair.com/>

Champion Healthcare Solutions builds on the rich heritage of its legacy brands—Champion Manufacturing (1992), Winco (1948), TransMotion (1993), and Chair-A-Medics (1998)—to deliver a portfolio of beautifully designed, high quality and well-engineered medical seating solutions. These products are crafted to enhance patient comfort and provider efficiency across outpatient, post-acute, and home care settings.

Clark Food Service Equipment & ClarkPro

Booth 125

<https://www.clarkfoodserviceequipment.biz>

Clark Food Service Equipment and ClarkPro work seamlessly to provide solutions for your evolving needs. CFSE offers Equipment Contracting, Turnkey Construction, and Design Services with an in-house team of experts providing technical skills and innovative solutions. ClarkPro focuses on B2B partnerships through distribution and a customized platform offering a wide range of products such as food service equipment, smallwares, disposables, and office, janitorial, and industrial supplies. Together, CFSE and ClarkPro handle complex customer needs, unique designs, and large capital bulk purchases.

Coast 2 Coast

Sponsor

<https://www.coast2coast.net/>

Coast 2 Coast is an architectural services company specializing in laser scanning, as-built surveying, 3D modeling, and reality capture. Our existing condition documentation for healthcare construction and renovation projects helps streamline design-build strategy and implementation.

Colombo

Booth 128

<https://colombopt.com/>

Built from the ground up around an ever-changing industry with your needs in mind. We offer the most comprehensive product line in the market, today. Specimen and material transfer to meet the needs of your facility, without hidden costs or fees.

Concourse Federal Group

Booth 223

<https://concoursefederal.com/>

Founded in 2009, Concourse Federal Group (CFG) is a successful Service-Disabled Veteran-Owned Small Business and a national leader in healthcare facilities with our advanced software, CHPS 360. We are dedicated to advancing our clients' missions with high-quality professional services.

Connexall

Booth 531

www.connexall.com

Connexall is a global leader in vendor-neutral, integrated clinical communication and workflow automation. We bridge the gaps in healthcare by connecting systems, people, and data—creating a seamless ecosystem that drives better outcomes, reduces frontline fatigue, and cuts costs. Trusted by over 60% of the top hospitals across the U.S. and Canada, Connexall sets the standard in connected healthcare.

Construction Specialties

Booth 402

<https://www.c-sgroup.com/>

From busy emergency departments to quiet recovery rooms, CS products are built to endure the demands of healthcare facilities as they juggle safety and cleanliness with supporting patient well-being. With solutions that balance hygiene, durability, and design, we help brands create spaces that support both care and comfort.

Cortech

Booth 331

<https://cortechusa.com/>

Cortech BH designs and manufactures rotationally molded furniture that humanizes patient care and promotes healing in the behavioral healthcare environment. By combining thoughtful aesthetics with the highest safety standards, Cortech delivers furnishings that are not merely comfortable, colorful, and home-like, but also durable, easy to clean, ligature resistant, and Green Guard Gold Certified.

CSSI Services

Booth 122

<https://cssiservices.com/>

CSSI is committed to being the best partner at transforming complex tax regulations into tangible financial benefits through proven technology and enduring relationships for our clients. We guide commercial property owners through advanced tax strategies including cost segregation, research & development, and energy efficiency studies to increase cashflow.

CTI

Booth 207

<https://www.cti.com/>

CTI are specialists who ensure the technology, processes, and staff are the most knowledgeable and efficient resource to serve you. We have a pulse on the present and an outlook to the future. CTI is not content to be idle and react to the industry trends, but are driven to steer the direction of AV-IT convergence and embrace the vast changes ahead in the field. We work to make your work better.

Cumming Group

Booth 327

<https://cumming-group.com/>

Cumming Group delivers expert project and cost management for healthcare facilities nationwide. With 65+ offices and 2,700+ professionals, we provide solutions that control cost, ensure quality, and keep projects on track—enabling providers to focus on improving patient care for the communities they serve. Visit us at cumming-group.com

DLR Group | Tsoi Kobus Design

DG19

<https://www.tsoikobus.design/>

At the center of DLR Group | Tsoi Kobus Design's Healthcare practice is an individual—be it a patient, caregiver, instructor, or student. Our design extends beyond the building to consider the emotional, mental, and social well-being of its inhabitants. Above all, we are deeply passionate about the patient experience and strive to create healthcare spaces that promote healing, inspire confidence, and offer comfort. We maintain a deep understanding of current national and global healthcare delivery trends and the complex socioeconomic factors that continue to impact facilities. We are skilled in planning for future change to equip owners with the advantages of nimble response, proactive strategies, flexibility, and choice. We leverage our experience and knowledge to deliver evidence-based solutions that support the unique needs of our clients, all the while rooting our practice in one core idea: empathy. We're an integrated design firm. Our promise is to elevate the human experience through design. This inspires a culture of design excellence and fuels the work we do around the world. We are 100% employee-owned: every employee is invested in our clients' success. At the core of our firm are interdisciplinary employee-owner teams, engaged with all project life-cycle stakeholders. These teams champion true collaboration, open information sharing, shared risk and reward, value-based decision making, and proficient use of technology to elevate design.

DPR Construction

Sponsor

<https://www.dpr.com/>

Since 1990, DPR has delivered over \$20 billion in projects for leading healthcare organizations. Our teams blend construction, clinical, and technology expertise to create high-performing, patient-centered environments. From early planning through prefabrication, we help healthcare systems build facilities that serve as critical lifelines to their communities. dpr.com

dRofus

Booth 313

<https://www.drofus.com/en/healthcare>

dRofus is a powerful data-driven space planning and requirements management tool that manages building and asset data across all project phases—from early planning through to operations—ensuring requirements are met, standards are upheld, and data is centralized. It stands out for its robust integrations, reporting, and lifecycle support, especially on large-scale projects like hospitals, campuses, and airports.

E4H Environments for Health Architecture DG17

<https://moregroup-inc.com/e4h/>

Committed exclusively to the design of innovative healthcare and health science + technology facilities, E4H Environments for Health Architecture is a national architecture firm focused on improving outcomes through inspired design. Our team of 240 future-focused strategists, visionary designers, and architects create flexible, state-of-the-art facilities designed to enhance wellbeing for communities, staff, patients, and families. With over four decades of experience, we provide value to our clients through the design of Lean, economically and environmentally sustainable spaces. E4H's unique process fosters collaboration and drives next-generation solutions to complex challenges encountered in today's healthcare and health science + technology landscape. Combining experience with for-profit and non-profit institutions allows us to provide efficient, speed-to-market solutions for our clients.

Getinge Booth 429

<https://www.getinge.com/us/>

With a firm belief that every person and community should have access to the best possible care, Getinge provides hospitals and life science institutions with products and solutions aiming to improve clinical results and optimize workflows. The offering includes products and solutions for intensive care, cardiovascular procedures, operating rooms, sterile reprocessing and life science.

Green Building Initiative Sponsor

<https://thegbi.org/>

Green Building Initiative (GBI) is an international non-profit organization that provides educational programs, tools, standards, and assessments that support building owners and facility managers that strive to improve the built environment through the application of sustainability, health, and resilience best practices. GBI's Green Globes is a comprehensive, science-based certification system that evaluates the environmental sustainability, health and wellness, and resilience of all types of commercial and multifamily real estate. With certifications for new construction, existing buildings, core & shell, and sustainable interiors, Green Globes offers a transparent and collaborative assessment process and includes validation from a third-party assessor, a site assessment, and personalized recommendations for improvement.

Engineered Systems Media Sponsor

<https://www.achrnews.com/engineered-systems-news>

Engineered Systems (ES) is a leading publication that delivers insights and solutions for high-performance buildings, focusing on HVAC, building automation, and energy efficiency for mechanical and facility engineers.

Essex Electronics Booth 108

<https://www.keyless.com/>

Since 1977, Essex premium touch and touchless access control solutions have become the choice of security professionals worldwide. Proudly manufactured in the USA, Essex vandal and ligature resistant iRox™ card readers and new K-Smart™ combination keypad/card readers are specifically designed to keep patients safe and secure in behavioral healthcare facilities.

Hall Render Sponsor

<https://hallrender.com/>

As a national health care-focused law firm, Hall Render is distinguished by its attorneys' extensive knowledge and experience. Hall Render has represented the health care industry, including more than 5,000 hospitals and health systems, in general and special counsel matters. Learn more about our services at hallrender.com.

ETS-Lindgren Booth 208

<https://www.ets-lindgren.com/>

ETS-Lindgren's MRI products include Shielding, Flooring, Doors, ClearShield®; Windows, energy efficient LED lighting, FMDS protection, and oxygen monitoring systems. Services include installation, testing, and site surveying. For more information visit our website at www.ets-lindgren.com or contact us at sales@ets-lindgren.com.

HDR DG4

<https://www.hdrinc.com/>

At HDR, we believe very healthcare environment should be as unique as its context. That's why we embrace a deep understanding of our clients' missions and then design with empathy for patient, family and staff experience. Our multidisciplinary staff advances health and well-being in local communities and on a global scale.

EwingCole DG6

<https://www.ewingcole.com/design/?filters=.healthcare>

EwingCole is a nationally recognized, fully integrated architecture, engineering, interior design, and planning firm of over 400 professionals. With offices in Baltimore, Charlotte, Fort Worth, Irvine, New York, Philadelphia, Raleigh and San Diego, we design places that make better communities, with particular emphasis on communication, thoughtfulness, and collaboration.

Healthcare Tech Outlook Media Sponsor

<https://www.healthcaretechoutlook.com/>

Healthcare Tech Outlook, a print platform offering healthcare decision-makers critical information on adopting, innovating, and building new programs and approaches to enhance their capability to provide care. Healthcare Tech Outlook has been a pioneer in offering a learn-from-peer approach to the healthcare arena, offering technical advice to enhance both the overall healthcare landscape and assist individual care providers from general practitioners and specialists to post-acute care organizations.

Gerflor Booth 420

<https://www.gerflorusa.com/>

For over 80 years, Gerflor has been a global leader in crafting, producing, promoting, and distributing cutting-edge, environmentally responsible flooring solutions. Our extensive product line caters to commercial healthcare, education, sports, and industry spaces.

HGA DG1

<https://hga.com/>

HGA is an interdisciplinary design firm serving clients across the country. We deliver elegant design solutions to complex challenges that increase operational efficiency, improve clinical outcomes, and elevate human experience in healthcare environments. Our impact-seeking experts and collaborators merge research, ethnography, lean process improvement, data, and design to transform environments of health through holistic, value-driven design.

<https://imegcorp.com/>

With a history that dates back over 100 years, IMEG has grown under one unifying purpose: creating positive outcomes for people, communities, and our planet. As a people-centered, national engineering and design consulting company, we've intentionally localized our focus to serve carefully chosen regions and markets, allowing us to put relationships and communities first, without sacrificing expertise. Our specialties include the built environment, building optimization, infrastructure, planning, and construction engineering-related services, but our secret to success is found in our deep bench of 2,800 team members across 90+ locations. For us, people-centered engineering is about more than the people we serve – it's representative of the engaged employee culture we've worked hard to create. We believe in investing in our people and their professional futures through continuous training, community involvement, and the ability to develop a niche specialty. After all, that's the whole reason we're drawn to creating positive outcomes for people, communities, and our planet: everyone wins. By utilizing a collaborative project approach that values our local relationships, national resources, and employee engagement, we're able to produce high-caliber work through high-quality processes driven by our ONE IMEG culture.

IN-DAPT

Booth 431

<https://in-dapt.com/>

The IN-DAPT Ceiling System is an advanced approach to integrating ultra-clean air, LED lighting, and surgical lights and booms. Our patented MEP raceway allows for a single point of connection while maximizing the time-savings of prefabrication.

Inpro Corporation

Booth 124

<https://www.inprocorp.com/>

Founded in 1979, Inpro is a global provider of high-performance, design-forward architectural products for building professionals. Based in Muskego, Wisconsin, Inpro makes and services products with an obsessive commitment to protecting buildings and the well-being of people who use them. Inpro's products categories include door + wall protection, washrooms, expansion joint systems, privacy, elevator interiors, architectural signage, and commercial window treatments.

Willis offers Corian® Solid Surface solutions designed specifically for healthcare. From nurses' stations and patient washrooms to operating rooms and long-term care facilities, Corian® Solid Surface is non-porous, hygienic, and built to last. Ideal for infection control and high-traffic areas, it combines high style with low maintenance so you can design environments that are easy to work in, more durable and easier to clean.

Wolf Gordon

Booth 116

<https://www.wolfgordon.com/>

Wolf-Gordon is an American design company committed to inspiring the creation of exceptional interiors for the healthcare, education, hospitality, and workplace markets. Founded in 1967, we provide wallcoverings, upholstery textiles, RAMPART® wall protection, Scuffmaster® paint, and Wink® dry-erase surfaces that are durable, sustainable, and easy to maintain. The qualities of great design, high performance, and sustainability are evident across all product categories. Through collaborations with leading international designers and our WG Design Studio, Wolf-Gordon develops new work that is provocative, inspiring, and contemporary. Wolf Gordon pioneered the flexible wall protection category with the creation of RAMPART® nearly 10 years ago.

Women in Healthcare Los Angeles

Association Partners

<https://losangeles.womeninhealthcare.org>

The Association of Medical Facility Women in Healthcare Los Angeles empowers women across the healthcare industry through networking, education, mentorship, and leadership development.

As part of a national organization, the chapter fosters community and professional growth for women in healthcare administration, operations, and facilities throughout the Greater Los Angeles region.

Zurn Elkay

Booth 102

<https://zurnelkay.com/>

Zurn Elkay supplies the industry's widest range of clean water solutions for drinking water, hygiene and sustainable water management. Headquartered in Milwaukee, Wisconsin, Zurn Elkay works with hospitals around the globe to deliver products and systems that enhance and ensure water quality, safety, hygiene, flow control and conservation.

CUMMING GROUP

PROGRAM + PROJECT MANAGEMENT
COST + COMMERCIAL MANAGEMENT
PLANNING + SCHEDULING
ENERGY + SUSTAINABILITY SOLUTIONS

cumming-group.com/sectors/healthcare

Cumming Group has helped deliver some of the most complex and meaningful healthcare projects in the United States—projects that serve communities and enhance the patient experience. As trusted project managers and cost estimators, we bring precision, foresight, and an uncompromising commitment to quality at every step—from academic medical centers and acute care hospitals to ambulatory surgery centers and rural health clinics.
